

Styling Your Kitchen Shelves Worksheet

Want to style your kitchen shelves, but not sure where to start?
Use this quick and easy worksheet as a guide to styling your bookshelves like a pro.

4 Easy Steps to Style Your Bookshelf:

Here's my shortlist of items I use for bookshelf projects:

-  **#1: Large to Mediums size ontainers such as cream ware, blue and white ginger jars, confit pots**
-  **#2: Decorative Books**
-  **#3: Smaller Vases and Containers**
-  **#4: Small Paintings**
-  **#5: Unique objects**
-  **#6: Small easels to prop my paintings up**

Step #1: Start in one corner and fill with your larger objects first.

PRO TIP: Add dimension and intrigue by creating variety in the heights of your objects. And to make your bookshelf appear well thought-out and have that “styled” look, repeat the same colors or textures at least 3 times.

Step #2: Add books to your shelves.

These can be cookbooks or any other books that you feel would be appropriate for your kitchen.

Step #3: Add in Paintings

Step #4: Add in small objects in the front

It's as easy as that! With just 4 simple steps, you can turn empty shelves into little pockets of design in your home.
